THE EUROPEAN GREEN CAPITAL AWARD

Following Stockholm in 2010 and Hamburg in 2011, Vitoria-Gasteiz (Spain) and Nantes (France) will be The European Green Capitals for 2012 and 2013.

The **award** of European Green Capital is given each year to a European city that has made exceptional efforts to protect the environment and **to achieve** sustainable development. The judges' decision is based on eleven environmental criteria such as: local transport, green urban areas, quality of air, noise, **waste** production and management and water consumption.

Inhabitants of the city centre of Vitoria-Gasteiz do not live more than 300 metres away from a green space. The city has also made an enormous effort to reduce its water consumption, and aims to bring it down to less than 100 litres a day per person.

Nantes, the winner for 2013, has an ambitious transport policy. It was the first French town to reintroduce electric trams, and it now has a desirable air quality and expects to reduce CO2 emissions by a quarter by 2020.

Europe is now an essentially urban society, with four out of five Europeans living in towns and cities. Our well-being is closely linked to the quality of our urban environment. The **aim** of the Green Capital Award is to make winning cities models and inspire other European cities to improve the quality of life of their citizens.
