RECYCLING. PACKAGING INNOVATION

Waitrose, an important chain of British supermarkets, is planning to replace black ready meal containers with recycled alternatives in their latest battle against pollution. The supermarket believes that this decision will remove five hundred tons of plastic from the waste system every year.

Black containers, which are also used to package fruit and vegetables, are difficult to recycle because the laser used to classify rubbish at collection places cannot detect and separate them. As a result, most go to the disposal area. Waitrose's initiative consists in replacing black containers with multi coloured containers that are made from recycled bottles and can be recycled again after use.

Waitrose is making great progress, with 85% packages now recyclable, and wants to make all its packaging reusable, recyclable or home compostable by 2023. The supermarket has already eliminated black plastic on its fresh meat, fish, poultry, fruit and veg lines. Packaging chief Karen Graley said: "This is an exciting example of packaging innovation that helps us move even more ready meals out of hard to recycle black plastic into a rainbow of recycled content that can be recycled again and again".

The new containers will initially be used for Indian ready meals, including chicken tikka masala, butter chicken, lamb rogan josh and pilaw rice. The first examples will be introduced within a fortnight.

Environment Secretary Michael Gove yesterday announced his support for a bottle deposit and refund system to increase recycling. *Adapted from an article, Daily Mail 17 July 2019*

QUESTIONS

1. Explain in your own words the title of this text (2 marks).

"Recycling. Packaging innovation"

2. Decide whether the following statements are true or false, according to the text. Write T or F. If the answer is not mentioned in the text, mark it false (2 marks; 0.5 for each wrong answer)

- a) It is easy to recycle black containers.
- b) Recycled bottles have been used to make the new containers.
- c) The new containers can be recycled two times.
- d) Waitrose already uses the new containers for Indian ready meals.

3. These words and expressions are found in the text: REPLACE, CONTAINERS, ALTERNATIVES, REMOVE, RUBBISH, EXCITING, READY MEALS, SUPPORT . Choose the ones that mean the same as the following. (2 marks)

- a) options
- b) delete
- c) waste
- d) pre cooked food

4. Choose the best option (a, b or c), according to the text. Only one answer is correct (2 marks)

1. Waitrose supermarket

- A. expects the decision will remove 500 tons of plastic from the waste system this year.
- B. expects the decision will remove 500 tons of plastic from the waste system each year.
- C. expects the decision will remove 5000 tons of plastic from the waste system every year.

2. Black containers will be replaced by

- A. recycled bottles.
- B. multi coloured bags.
- C. containers of various colours.

3. By 2023

- A. Waitrose expects all its packaging will be reusable.
- B. Waitrose expects only its packaging for fresh food will be reusable.
- C. there will be a bottle deposit.

- A. 4. The new containers will be introduced
- B. next month.
- C. in two weeks.
- D. tonight.

5. Answer the questions using your own words (25 to 50 words for each question) (2 marks; -0.2 for each question if too many or not enough words)

1. Do you recycle? What do you do with the rubbish you create at home?
2. What other alternatives can supermarkets use to package their fresh products?
